PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/597,950	Applicant(s) XU ET AL.	
	Examiner Melvin Marcelo	Art Unit 2416	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 6-9-2008 have been fully considered but they are not persuasive. Applicant's amendment to claim 1 did not incorporate the entirety of claim 7 which includes first and second networks. With respect to the argument that Wisner et al. (US 6957251) does not teach partial failure of the network entity, Wisner's paragraph 0053 clearly describes partial failure of a component of the data center.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Wisner et al. (US 2002/0165944 A1).

With respect to the claims below, references to the prior art appear in parenthesis.

Claims

1. *A system for providing redundancy for an entity in a telecommunications network (Wisner, Figure 7), the system comprising:*
a first network entity adapted to send and receive traffic (First data center 104); and
a second network entity configured to operate as a standby network entity (Second data center 106), wherein the second network entity takes control of only a portion of the functions of the first network entity in response to a partial failure in the first network entity (Second data center 106 takes control of the failed data storage functions 111 of the first data center

Art Unit: 2416

104) *when a failure to receive either a primary status message over the first network entity or a secondary status message over the second network entity (**Heartbeat messages in paragraph 0051 over multiple monitoring agents in paragraph 0050**).*

4. *The system for providing redundancy for an entity in a telecommunications network in claim 1, wherein the first network entity is in a first location (**First data center 104 at site A**) and the second network entity is in a second location that is geographically remote from the first location (**Second data center 106 at site B**).*

Allowable Subject Matter

3. Claims 2, 3, 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 8-22 are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2416

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
